# WICKED BRITISH DIVISION IS JOIN IN GREAT OFFENSIVE.

WASHINGTON, July 22.—Franco-American troops, continuing their advance south of the Ourcq River, crossed the Soissons-Chateau Thierry road between the Ourcq and the Clignon Sunday night, Gen. Pershing reported in today's communique. The towns of Bezu, Meds and Charveves have been occupied by the Allied troops. American troops also have crossed the Marne and occupied towns on the north bank of the river, which, the communique says, has been hastily evacuated by the Germans. Many more prisoners have been captured.

LONDON, July 22.—Lord Lee has resigned as director-general of food production. He says he is not sufficiently convinced of the defeat of the submarine peril nor the security of food supplies for the next few years, whether the war continues or not, to enable him to acquiesce in the sudden and unexpected reversal of the government's policy for 1919, recently approved by the Cabinet.

Gains Since March Being Nullified. Bridges Built as an Aid in Pursuit.

Franco-American Nutcracker Fast Closing Upon Huge Hun Forces.

Development Farther North, Scene of March Blow, is Now Expected.

BY ARTHUR SEARS HENNING. (EXCLUSIVE DISPATCH.)

WASHINGTON, July 22.—Military observers on the General Staff are confident that the offensive which was wrested from the Germans last Thursday will be retained by the Allies until the Germans are forced to surrender much or all the territory they gained in their five successive drives since last March.

From all indications the Franco-American nutcracker is closing in on the Germans in the Soissons-Rheims salient. Secretary Baker said today the railroad from Soissons to Chateau Thierry, which is the sole source of rail supply to German troops caught in the pocket, has been broken.

While this salient is rapidly being reduced British dispatches indicated that developments may be expected farther north along the Rhine, where the Germans made their initial and greatest gain of the five offensives this year.

BRITISH ON FLANK. Today's dispatches report that the British, in conjunction with the French, carried out a successful operation to the east of Amiens. A glance at the war map will show that this is along the flank of the deep salient driven in by the Germans in their March drive, with its base in the vicinity of Noyon and Amiens and its apex south of Chateau Thierry.

Gen. March explained recently to the newspaper correspondents that the gains by the Germans from Rheims to the channel during their early offensives this year stretched the Allies' lines sixty-six miles. Where the lines were stretched the greatest was in the two salients, the one between Rheims and Chateau Thierry and Soissons, which is being reduced by the present Allied offensive.

ALLIES HANDICAPPED. With these two salients driven in to their lines, the Allies were required to maintain a relatively larger force than the Germans, because the Allies were on the outside of the circles, and the Germans on the inside, where the problem of holding reserves to defend any part of the line was simpler.

What Gen. Foch has demonstrated is that the successful drive now being made by the Allies is an offensive, though handicapped by the earlier stretching of his lines.

The situation now is shaping itself into one where Foch, by wiping out the Soissons-Rheims salient, will so shorten his line as to increase his reserves, making it possible for him to throw some of the reserve forces into an attack on the salient farther north. And this at a time when the Crown Prince is reported as sounding a call for help from Prince Rupprecht, who must weaken his line in the north, which appears to be threatened.

20,000 PRISONERS. Secretary Baker said today that official reports showed the Allies had captured 20,000 prisoners. He said a misinterpretation had been placed upon Gen. Pershing's communique yesterday, reporting capture of 17,000 prisoners and 500 guns. This refers to the fighting of the last few days. American divisions had captured more than 6000 prisoners, 100 cannon and many trench mortars and machine guns.

"We have nothing official on our losses of any kind," Secretary Baker added. "No casualty list of men killed or wounded since the counter-offensive began have yet been received."

WASHINGTON, July 22.—The offensive began have yet been received.

Germans, Fighting Bitterly Along Base of Salient, Facing Debacle.

Enemy Likely to be Forced Back to the Line of the River Vesle.

ON DON, July 22.—Hard fighting is proceeding in all sections of the line from Soissons to Rheims, according to dispatches reaching London this afternoon, but always with the Allies on the offensive and the Germans fighting desperately to save what they can before the onrush.

The French gathered up forty-five more guns, including six of large calibre in the fighting along the Marne, where the Germans were compelled to retreat very hastily, leaving behind material of all kinds.

Although the Germans are fighting bitterly along the bottom of the salient, there are indications they realize a retreat is inevitable, for they are burning villages several miles behind their lines, and there is a great congestion of troops around the top of the salient, which may indicate preparations for a new line.

ALLIES PURSUE. With the district south of the Marne cleared of Germans, the Allies are constructing bridges for pursuit. The Germans undoubtedly will continue to fight with most stubborn manner for the salient, but if things continue to go well the enemy is likely to be forced back to the line of the River Vesle, which offers good defenses and has good communications.

The Germans made several heavy counter-attacks on the eastern side of the salient, but the fighting appears to be growing in intensity all along this western tip. A German counter-attack by Gravelotte was a slight advantage for them, but all

## "PROUD OF YOU," SAYS PERSHING.

American Commander Tender in Solicitude for Wounded in Hospitals.

PARIS, July 22.—"Your country is proud of you, and I am more than proud to commend such men as you. You have fought splendidly."

Gen. Pershing thus addressed wounded American soldiers lying in the American Red Cross hospitals in Paris today. In each ward of every hospital he talked to the men. He inquired if they were being well cared for, how and where they were wounded, what regiments they belonged to, and expressed his sympathy to scores of patients.

Gen. Pershing also talked to the physicians, surgeons and nurses and thanked them for the work they were doing in caring for the wounded.

"One can ask no more than that they should do as well as you have done," he said to his troops. The general added that he wished he could talk personally with each and every man in the hospital, but this was impossible. So he asked Maj. Perkins to repeat his message and say to each individual man:

"The American people are proud of you."

## War Contract Scandal.

## SEVENTEEN IN GRIP OF LAW.

Raincoats Tainted with Fraud Sent to France, Charge.

Officers, Employees of Fifteen Concerns Taken.

Army Officers Expected to be Arrested Soon.

[BY A. P. NIGHT WIRE.]

NEW YORK, July 22.—Extensive conspiracies, involving bribery and graft in connection with army contracts for rubber raincoats sent to France, were disclosed tonight by Department of Justice officials, simultaneously with the arrest of seventeen officers and employees of fifteen manufacturing companies in New York and Brooklyn, on charges of bribery, fraud or conspiracy.

Officers of the quartermaster's corps involved are under surveillance and probably will be arrested soon in Washington or other cities.

Hundreds of thousands of dollars of rubber raincoats sent to France with fraud already uncovered by Department of Justice agents, and other disclosures affecting army orders for clothing, soldiers' equipment, disinfectants and supplies and involving arrests on criminal charges may be made soon, it was learned.

SOME HIGHER-UPS.

Most army officers at whom the finger of suspicion points are of the lower ranks, but a few of the ranks of major and colonel are said to be under investigation.

Direct bribery of unnamed army officers who had charge of letting contracts or inspecting goods charged against a number of those arrested tonight.

It was announced that in some cases manufacturers intimidated military or civilian inspectors of shops by threatening to use influence in Washington to obtain their dismissal if they did not approve the coats manufactured. Others practiced fraud by secretly shifting rejected goods to other plants, to which inexperienced inspectors or those who would "play the game" were assigned.

THOSE ARRESTED.

Those arrested were: Felix Gould, a wealthy clothing manufacturer, who is charged with acting as go-between for other contractors and with seeking to solicit contracts under the illegal contingent fee system; Joseph Sydenham, William Sydenham and Joseph Wood of the Sydenham Rubber Co.; Ralph Cohen of the Yorkshire Manufacturing Company; Ralph Rosenthal of Hanes & Rosenthal; Alfred Zittel of the Automobile Raincoat Company; Polly Clamons of the Manchester Waterproof Coat Company; I. M. Valper of the National Rubber Company; Simon Harris of the Harris Raincoat House; Morris Lesser of Lesser & Stenge; Joseph Pines of the Pines Rubber Co.; and I. H. Yellin of the Eureka Rubber Manufacturing Company.

The round-up follows weeks of investigation by agents of the Department of Justice and the War and Navy departments.

The arrests are an outgrowth of the government's campaign against the illegal system by which scores of agents have obtained army contracts on a contingent fee basis.

STORIES CO-ORDINATE.

Significance is attached to the stories of the arrest of agents by several contingent fee agents operating independently, inasmuch as each named the same officer or officers in Washington as being susceptible to money gifts. Quite uniformly, it was the experience of a group of contractors acting in good faith to fail to obtain raincoat contracts which went to higher bidders, and later to receive telephone calls from men who guaranteed to obtain contracts on payment of retainer fees.

In running down evidence, the government agents found the trail led to Boston and Philadelphia, reported in the region between the Rocky and Appalachian Mountains, but the rainfall was light and unrelenting high temperatures prevailed. There were seven heat prostrations in Chicago and one death was attributed indirectly to the heat wave.

Temperatures generally yesterday as reported by the Los Angeles office of the United States Weather Bureau were as follows:

## PASADENA IS NOW AFLOAT.

New Steel Freighter Placed in Active Service.

Balloon Camp Split Socially Over New Hat Cord.

Marcosson to Talk at Throop, College Announcement.

(LOCAL CORRESPONDENCE.) PASADENA, July 22.—The U.S.S. Pasadena now sails the sea. She is a 940-ton steel freighter, 492 feet in length, and carries a 5-inch submarine-defying rapid-fire gun. This was the word the Board of Trade received from Washington yesterday.

It is understood that the ship was named through the influence of some of the several men of war affairs that Pasadena has in Washington. An immediate effort will be made by the Board of Trade to learn from the captain of the ship just what may be sent as a gift and in acknowledgment of the honor that has been paid the Crown City by the Shipping Board.

**SOCIAL FRICTION.** Socially the Arcadia balloon camp is split wide open—the cause being directly attributed to the new green hat cords worn by the aviation section of the Signal Corps. This new cord came into vogue when the balloon or aviation section had its famous split from the rest of the Signal Corps about the time the Arcadia camp came into existence, and while its fate was hanging in balance of official red tape, the Signal Corps designation was and still is an orange and white cord. The new green cord, according to feminine admirers of the uniform who get close enough for minute inspection. The social phase of the cord is something entirely different. It was noticeable Sunday in the Crown City where the balloon soldiers were learned to come because of the hospitable reception accorded them, dances, clubs, dinners, auto rides, on Sunday when the handsome green cords appeared for the first time, it was the soldiers wearing them who naturally attracted the first attention among civilian hosts and hostesses.

According to the stories told by the soldiers, who have them tucked under their arms, the new cord is a disadvantage of the rest of the camp in purchasing them through the canteen, as they had not been issued regularly by the government. Retaliations were in order.

"All we can do is to tell the people that it is the cooks and kitchen aides who wear the new cords and that the rest of us who really go up in the balloons still wear the real thing," said one group of soldiers who were the orange and white cord.

**DATED AHEAD.** Throop College is out with the announcement that Isaac F. Marcosson, who is characterized as America's foremost reporter in to speak on "The War and After," February 24, 1919, with the provision, perhaps that the Kaiser is captured, and that Mr. Marcosson returns safely from his fifth trip to the other side. At the present time he is on a tour of the neutral and belligerent countries and is renewing his acquaintance with King Albert, Gen. Foch, Diaz, Pershing, Joffre, Fehin, Lloyd-George, Northcliff.

# Ships

THE Port of Los Angeles is rapidly becoming one of the great shipping centers on the Pacific Coast.

At the opening of the Panama Canal the net tonnage of ships entering the harbor had increased from 356,000 tons to 2,769,000 tons, the value of the commodities, exclusive of lumber, being over \$80,000,000.

Later statistics show that over a period of twelve months 2778 vessels entered the port with merchandise amounting to over 2,150,000 tons. Over 14 foreign countries were represented at different periods by vessels with a combined net tonnage of 3,223,000 tons, while the revenue from Wharfage, Pilotage and other fees was over \$114,000.

Having keen, capable business men at the head of affairs the Guaranty Bank is consistently keeping pace with the growth of the Los Angeles Shipping Industry, and the steady increase in the number of our patrons testifies to the confidence in which this institution is held by the people.

The resources of this bank exceed \$25,000,000.

## BLUE LAWS HIT DRUG MEN HARD

Will Close on Sundays if New Measure Stands.

Association Retains Counsel to Fight Ordinance.

Big Battle for Injunction is on this Morning.

Los Angeles faces drug store-closing Sundays if the new Sunday-closing ordinance, passed by the City Council, is permitted to stand as legal, according to an announcement made yesterday by H. A. Dutton, president of the Los Angeles and Southern California Retail Druggists' Association.

The association will be represented by Ray E. Nimmo as counsel at the hearing to be given this morning by Judge Jackson on the question of making permanent the temporary injunction granted last week, which prevented the enforcing of the new blue law last Sunday. This temporary injunction was granted by Judge Wellborn on the application of Mary Ramsey, a retail grocer of No. 4716 Central avenue, who will be represented today by Charles Haas. The grocer and the druggists are the hardest hit if the ordinance is declared constitutional and the injunction dissolved.

**MUST CLOSE STORES.**  
"If the new Sunday ordinance stands the tests of the courts," said Mr. Dutton, "it simply means that the retail druggists of this city must close their doors on Sundays. The association has more than 250 members here in Los Angeles. We had a meeting last week. We agreed that we cannot afford to keep open and hire clerks simply to sell soda water, cigars and drugs. We must be permitted to sell soap and razors, and tooth powder, and similar merchandise, which all druggists carry and which are necessities if any goods are."

**TO FIGHT LAW.**  
Attorney Nimmo, representing the druggists, said yesterday: "The druggists are prepared to fight this new ordinance to a finish, and if it is declared constitutional, we shall go to the Council for relief. New license taxation has been passed against the druggists by the Council and yet now comes an ordinance to take away more than half of the druggists' income. Business as usual should be the watchword now, and certainly this includes business such as druggists and grocers engage in, for they handle necessities, which must be purchased on Sunday."

The city will be represented at today's hearing by Jess Stephens, Assistant City Attorney. Mr. Stephens said:

"The city will contend that the ordinance should be dissolved and the ordinance enforced next Sunday and thereafter. There is no discrimination in the ordinance against necessary and recreational business, and the ordinance, we feel, is constitutional."

**MOORE HERE TODAY.**  
State Defense Council Vice-President May Reorganize the County Body.

C. C. Moore, vice-president of the State Council of Defense, will be in Los Angeles today and will probably reorganize the County Council of Defense, made necessary because of his request that members of the Council who are candidates for elective offices resign.

Dr. Jessie A. Russell, who is a candidate for the Assembly, resigned more than a week ago. Other members who are candidates are Judge Wellborn, chairman of the Council; Dist. Atty. Woolwine, Sheriff Cline and Supervisor Hamilton.

**FOR FILM FOLKS' BALL.**  
Popularity Contest will Decide Grand March Leaders at War Service Event.

The motion-picture players of Los Angeles are out to learn just what it is about a man and woman that makes him or her popular. They are going to do it by popular vote, and a secret vote. As a reward for the determined popularity, the man and woman are to lead the grand march at the ball to be given by the Motion Picture War Service Association in the Shrine Auditorium on Saturday evening, August 2.

Neither of them will be a "star," however, for stars are barred. Those eligible for choice may be members of the several stock companies in the studios. They may be extra persons. No matter whether humble or climbing towards stardom, their popularity is the only thing under consideration.

The ball is arranged by the Motion Picture War Service Association to provide funds for the activities of that body. The service which the motion-picture industry is now organized to offer has already received the recognition and endorsement of the Federal government, and enterprises will be placed in its hands for management and support.

**GOVERNOR AT HARBOR.**  
Present No Time for Politics, He Says in Address to Shipyard Workers.

Gov. Stephens addressed about 5000 shipyard workers at the Los Angeles Shipbuilding and Dry Dock Company yard at the harbor yesterday. His talk was purely patriotic and was enthusiastically received by the men who are making the ships to win the war.

"This is no time to talk politics," said the Governor. "Patriotic, persistent and effective co-operation on the part of all the people of California to help the nation win the war is the purpose that is uppermost in the mind and will remain so until the standard of democracy and freedom is unfurled to the breeze of Berlin. It will be well. President Wilson says, if politics were eliminated during the period of the war."

## The War at Home

When "Gen." Nicholas Senn Zogg was arraigned in the Federal Court yesterday to plead to the indictment charging Norbert A. Myles, Edgcombe Pincham, Berthold C. Huber and himself with having violated the Selective Service Act in having relieved Mrs. Marie C. Huber, mother of one of the defendants, of \$1000 on the agreement to get young Huber out of this country to Mexico to avoid the draft, he appealed to Judge Bledsoe that he be allowed to communicate with his friends while in the County Jail.

Zogg said he had been held incommunicado, and had been denied the privileges ordinarily allowed prisoners. Judge Bledsoe ordered that Zogg be granted leave to see his friends under the rules usually obtaining relative to the communications between prisoners and friends.

Zogg and Huber being the only defendants in court to plead, they asked that they be allowed another week, and this was allowed. It was stated that Myles and Pincham were out of the city on a prospecting trip.

**Held as an Enemy.**  
H. G. Bruneman, who claims to be a laborer, was arraigned before U. S. Commissioner Stephen G. Long yesterday on a charge of violating the Espionage Act, and held in \$1000 bond.

The complaint against Bruneman is signed by M. F. Warnock of the local police department. It is alleged that he is an enemy of the country and had recently declared that American soldiers had gathered a number of German soldiers together and thrown bombs among them "just for fun," that the stories of German atrocities in France and elsewhere were lies, and that Gen. Pershing had court-martialed 400 soldiers in his command who had refused to say that stories concerning "baby killing" were true.

**Secret Complaint Filed.**  
U. S. District Commissioner Stephen G. Long yesterday held Rafael Garcia, against whom a secret complaint had been filed by the Department of Justice, in \$1000 bond and fixed his preliminary hearing for this afternoon at 2 o'clock.

Garcia is charged with circulating German propaganda and to have used the mails for that purpose. A hint as to the nature of the charges was given by the Department of Justice investigators, who told the commissioner that the propaganda hit through the mails might not be returned to the city in time for the hearing, and that a postponement might be necessary.

**Selective Draft Case.**  
A. Burton Hawley and his wife, Selma, moving picture actress, were arraigned in Judge Oscar A. Tripp's court yesterday on the charge of violating the Selective Service Act in having made a false statement in a questionnaire sent to Hawley, relative to the wife being dependent on his labor for support. Both pleaded not guilty and the trial was set for August 20. William S. Hart qualified as one of the bondsmen.

**Arrest Follows Threats.**  
Hugo Hummel, an employee of a San Bernardino hotel, was held without bail by United States Commissioner Phelps of that city, following his arrest by Deputy United States Marshal J. W. Bell. He is charged with having violated the Espionage Act. The accused is alleged to have threatened to kill President Wilson, and to have expressed an opinion that Germany is a peace-loving nation. "If Wilson were out of the way we should have many years of peace; it would be better for Germany to win the war because she is so progressive. One of the statements imputed to him."

Wider and wider the front of the battle has become. The French attack near Montdidier was a very well executed and successful minor operation, and, according to dispatches received this afternoon, the battle front, was prepared as a diversion, keeping the enemy's attention occupied and preventing him sending large reinforcements to the southward. At the same time it also affords an important local impetus in the line at a sector where advance means better position for Amiens and the French attacked on the front after an hour's bombardment of the German lines captured all three villages—Suvillers, Aubvillers and Rainval within five miles.
